

I am opposed any weakening of the New Jersey Do Not Call Law.
I am specifically opposed to allowing telemarketers to call me
because I have conducted business with a company within the last 18
months. Such a provision would certainly be abused by
telemarketers and is uninforcable.

Before the Do Not Call Law, unsollisted telemarketer calls were
significant disruption in our home. The calls were a particularly
distrubing inconvenience to my 88 year old mother. Now we are not
bothered at all by such calls.

New Jersey's Law is not broken. Don't fix it. Please leave it alone!
